Assistant Commissioner for Patents

Sir:

In response to the Office Action mailed August 23, 2002, please amend the above-identified application as follows:

IN THE SPECIFICATION

Please replace the paragraph beginning at page 3, line 18 of the specification with the following paragraph.

-- There is a demand in the gaming market for a new method of game play on electronic video machines. A method of game play that would provide the player with: new games and/or bonuses with lower odds and larger jackpots, that would not change the percentage of payback on existing games; a method of game play that would allow for a higher volume of "coin-in" per machine; and a method of game play that would promote groups of game players to participate in the same establishment.--
